
THE MEMORIAL GRANT FUND

Over 40 years ago, EBBA established a Memorial Grant Fund to recognize departed members and friends. Income from that endowment has been used annually to make student awards for ornithological research projects which use bird banding as part of the study. (See below for current awards.) Income has grown so that up to \$500 has been designated by council for distribution by the Memorial Grant Committee.

If you want to remember a departed bander or birder friend, or simply contribute to the support of student research in ornithology, send your tax-deductible check to EBBA's Treasurer, Donald Mease. Added income from the Fund will be used in the future to increase the number or amount of these competitive awards.

APPLYING FOR RESEARCH AWARDS

The Eastern Bird Banding Association seeks applicants for its annual \$500 research awards in aid of research using banding techniques or bird banding data. Applicants should submit a resume of their banding and ornithological background, the project plan including the significance of the study site, and a budget. No formal application forms are necessary; however, three copies of each application are required. Grant requests must be received by 15 Mar each year with award announcements 30 Apr.

Preference is given but not limited to research in eastern United States, or with species that spend part of their life there. Projects that are planned for other portions of the United States, North America, or the Western Hemisphere also may be considered. Research studies with conservation or management implications are particularly encouraged.

Grantees are encouraged to present at least part of their study results at an annual EBBA meeting. Travel grants for this purpose are available, in addition to the Memorial Grant for the research. Also, grantees are encouraged to become members of EBBA.

Send applications/inquiries to:
