Oswego City, N. Y.	abundant	few	
Portland, Conn.	abundant	rare	
Bangor, Me.		common	

I did not find it in Lorain Co., in either 1893 or 1894, nor during either summer. At Grinnell, Iowa, it was common during the migration, arriving late in April or early in May. I have always found them well up in the trees. Prof. Kumlein says of it in Wisconsin: "Not common. A few breed in suitable localities in the southern tier of counties."

Dendroica tigrina (Gmel.) CAPE MAY WARBLER.

	T. V.	GENERAL NOTES.

Cortland Co., N. Y.	rare	
Oswego City, N. Y.		5-26-'92 first record
Portland, Conn.	occasional	
Phillips, Me.	not com.	

Prof. Kumlein says it is very irregular in Wisconsin, some years being even abundant, and others just the reverse. At Grinnell, Iowa, I never found them really common, but some were seen every year, always in the lower branches of the trees, during the first or second week in May.

Dendroica aestiva (Gmel.) YELLOW WARBLER.
