

For Executive Council—John H. Sage, V. H. Chase, W. I. Mitchell, B. T. Gault, J. C. Galloway, H. C. Oberholser.

NOTE—In accordance with a recent amendment to the Constitution, the nominee for president who receives the second higher number of votes will be declared vice-president.

In accordance with the constitution of the W. O. C., Article 111, Section 11, Mr. Frank L. Burnes, Berwyn, Pa., has been appointed Judge of Elections. All ballots must be sent to him to be counted. Members in arrears for dues will be eligible to vote, provided their dues reach the treasurer, Lynds Jones, Oberlin, O., before Nov. 25.

It is earnestly hoped that every active member will not fail to cast his vote for some candidate for office for the coming year. The list of candidates is placed before you to give you an opportunity to vote for such as have received the highest number of nominating votes, if you chose to. But you are not confined to the nominees whose names appear in this Bulletin in your choice of officers. You have the privilege of voting for any active member of the chapter, if you prefer. Your vote need not wait until Nov. 5, but can be cast and forwarded to the Judge of Elections, Mr. Frank L. Burns, Berwyn, Penn., at once. You will stimulate interest in your fellow members, but particularly in the officers of the chapter and give them great encouragement in the future work of the chapter, by casting your vote for some member. Do not fail to do so.

EDITORIAL.

This number of the Bulletin has been delayed in order that all lists of nominations for officers for the ensuing year should be in. The November number will also be delayed a few days for the purpose of announcing the result of the election, which closes December 5. The editor feels that members prefer it so rather than to wait two months before learning of the result.

Members are requested to send their notes for publication to the editor as soon after receiving this number as possible, giving plenty of time for arranging them in the best order. As the close of the season of migration and active outdoor study approaches, each must have at command many notes which should be put where fellow workers can learn them. Facts discovered and hoarded are likely to be forgotten, in any case they are barren of results. It is only as we let others know about our work that we shall be recognized as active students of our beloved science.
