

King Rail.	Prairie Horned Lark.
Virginia Rail.	Rusty Blackbird.
Sora.	Savanna Sparrow.
Florida Gallinule.	Cliff Swallow.
American Woodcock.	Tree Swallow.
Least Sandpiper.	Orange-crowned Warbler.
Greater Yellow-legs.	Prairie Warbler.
Bartramian Sandpiper.	Louisiana Water-Thrush.
Semipalmated Plover.	American Pipit.
Marsh Hawk.	Winter Wren.
Red-shouldered Hawk.	Short-billed Marsh Wren.
Bald Eagle.	Long-billed Marsh Wren.
Barred Owl.	Ruby-crowned Kinglet.
Screech Owl.	Gray-cheeked Thrush.

Species not recorded which were certainly in northern Ohio on the days when these records were made.

Black Tern.	Lesser Scaup Duck.
Least Bittern.	Great Blue Heron.
Ruffed Grouse.	Turkey Vulture.
Cooper's Hawk.	Broad-winged Hawk.
American Long-eared Owl.	Red-bellied Woodpecker.
Nighthawk.	Lark Sparrow.
Carolina Wren.	

It thus appears that there were not less than 150 species of birds in northern Ohio during the period covered by May 14 and 15. Of these 138 were actually recorded.

## A NEW RECORD FOR THE PRAIRIE WARBLER IN OHIO.

BY W. F. HENNINGER.

On May 11th, at about 3 p. m., I ran across four individuals of the Prairie Warbler (*Dendroica discolor*) in our favorite Warbler woods here, one and one-half miles south-east of Tiffin. Some of the tall timber in these woods was cut a year ago and on some saplings, with Myrtle Warblers all around me, I spied these rarities, and was favored by all four with their song, so frequently heard last year in Virginia and southern Ohio. Evidently they were migrants, as on May 15th, on our "All day with the birds," when I wanted to show Mr. Karl Heilmann these birds, none were to be found, in spite of the most diligent and painstaking search. This is a new record for the Prairie Warbler in the state, and especially interesting, as none seem to have been reported from this corner of our commonwealth.
