

Visual Resources for Ornithology (VIREO) at the Academy of Natural Sciences of Philadelphia. Accession numbers from VIREO will then be published within appropriate sections of the paper to facilitate access to the photographs in subsequent years.

*Style and format.*—The current issue of *The Wilson Bulletin* should be used as a guide for preparing your ms; all mss must be submitted in that format. For general matters of style authors should consult the "CBE Style Manual," 5th ed., Council of Biology Editors, Inc., Bethesda, MD, 1983. Do not use footnotes or more than two levels of subject sub-headings. Except in rare circumstances, major papers should be preceded by an abstract, not to exceed 5% of the length of the ms. Abstracts should be informative rather than indicative, and should be capable of standing by themselves. Most units should be metric, and compound units should be in one-line form (i.e., cm-sec<sup>-2</sup>). The continental system of dating (19 Jan. 1950) and the 24 hour clock (09:00, 22:00) should be used, and the Standard Time specified (e.g., EST for Eastern Standard Time) at first reference.

*References.*—In both major papers and general notes, if more than four references are cited, they should be included in a terminal "Literature cited" section. Include only references cited in the ms, and only material available in the open literature. ("In-house" reports and the like should not be cited.) Use recent issues of the *Bulletin* for style, and the most recent issue of "BIOSIS," BioScience Information Service, Philadelphia, PA, for abbreviations of periodical names. If in doubt, do not abbreviate serial names. Manuscripts with fewer than five references should be cited internally, e.g., (Sprenkle and Blem, *Wilson Bull.* 96:184–195) or Sprenkle and Blem (*Wilson Bull.* 96:184–195).

*Nomenclature.*—Common names and technical names of birds should be those given in the 1983 A.O.U. Check-list (and supplements as may appear) unless justification is given. For other species the *Bulletin* uses the common names in Sibley and Monroe, "Distribution and Taxonomy of Birds of the World." Common names of birds should be capitalized. The scientific name should be given at first mention of a species both in the abstract and in the text.

*Permits and collecting.*—All experiments must have been conducted in uniformity with state and federal animal care guidelines. In cases when birds were collected, authors must indicate permit numbers and other necessary permissions. Finally, indiscriminate collecting of large numbers of birds to test single hypotheses of less than extraordinary significance is here discouraged. Failure to thoroughly justify any such collections may result in rejection of the manuscript.

The editor welcomes queries concerning style and format during your preparation of mss for submission to the *Bulletin*.—CHARLES R. BLEM, Editor.

This issue of *The Wilson Bulletin* was published on 1 September 1995.

Yellow Springs, OH 45387

### SUGGESTIONS TO AUTHORS

See *Wilson Bulletin*, 107:574-575, 1995 for more detailed "Information for Authors."

Manuscripts intended for publication in *The Wilson Bulletin* should be submitted in triplicate, neatly typewritten, double-spaced, with at least 3 cm margins, and on one side only of good quality white paper. Do not submit xerographic copies that are made on slick, heavy paper. Tables should be typed on separate sheets, and should be narrow and deep rather than wide and shallow. Follow the AOU Check-list (Sixth Edition, 1983) insofar as scientific names of U.S., Canadian, Mexican, Central American, and West Indian birds are concerned. Abstracts of major papers should be brief but quotable. In both Major Papers and Short Communications, where fewer than 5 papers are cited, the citations may be included in the text. Follow carefully the style used in this issue in listing the literature cited; otherwise, follow the "CBE Style Manual" (AIBS, 1983). Photographs for illustrations should have good contrast and be on glossy paper. Submit prints unmounted and attach to each a brief but adequate legend. Do not write heavily on the backs of photographs. Diagrams and line drawings should be in black ink and their lettering large enough to permit reduction. Original figures or photographs submitted must be smaller than 22 × 28 cm. Alterations in copy after the type has been set must be charged to the author.

### NOTICE OF CHANGE OF ADDRESS

If your address changes, notify the Society immediately. Send your complete new address to Ornithological Societies of North America, P.O. Box 1897, Lawrence, KS 66044-8897.

The permanent mailing address of the Wilson Ornithological Society is: c/o The Museum of Zoology, The University of Michigan, Ann Arbor, Michigan 48109. Persons having business with any of the officers may address them at their various addresses given on the back of the front cover, and all matters pertaining to the Bulletin should be sent directly to the Editor.

### MEMBERSHIP INQUIRIES

Membership inquiries should be sent to Dr. John Smallwood, Dept. of Biology, Montclair State Univ., Upper Montclair, New Jersey 07043.

## CONTENTS

### MAJOR PAPERS

- ARTIC FOX INFLUENCE ON A SEABIRD COMMUNITY IN LABRADOR: A NATURAL EXPERIMENT .....  
*T. R. Birkhead and D. N. Nettleship* 397
- MIGRATION CHRONOLOGY, SEX RATIO, AND BODY MASS OF LEAST SANDPIPERS IN BRITISH COLUMBIA  
..... *Robert W. Butler and Gary W. Kaiser* 413
- COMMON TERNS NESTING ON NAVIGATIONAL AIDS AND NATURAL ISLANDS IN THE ST. LAWRENCE  
RIVER, NEW YORK ..... *Kenneth Karwowski, J. Edward Gates, and Lee H. Harper* 423
- FORAGING SOCIABILITY OF NESTING WADING BIRDS (CICONIIFORMES) AT LAKE OKEECHOBEE, FLORIDA  
..... *Jeff P. Smith* 437
- DISTRIBUTION AND ABUNDANCE OF RAPTORS IN PUERTO RICO ..... *Frank F. Rivera-Milán* 452
- BIRD SPECIES RICHNESS IN RELATION TO ISOLATION OF ASPEN HABITATS .....  
..... *Gail M. Turchi, Patricia L. Kennedy, Dean Urban, and Dale Hein* 463
- BREEDING BIOLOGY OF FLORIDA PRAIRIE WARBLERS AND CUBAN YELLOW WARBLERS .....  
..... *John W. Prather and Alexander Cruz* 475
- ARTHROPOD PREY OF NESTLING RED-COCKADED WOODPECKERS IN THE UPPER COASTAL PLAIN OF  
SOUTH CAROLINA ..... *James L. Hanula and Kathleen E. Fanzreb* 485
- THE CALLS AND ASSOCIATED BEHAVIOR OF BREEDING WILLOW PTARMIGAN IN CANADA .....  
..... *Kathy Martin, Andrew G. Horn, and Susan J. Hannon* 496
- NATURAL HISTORY OF THE MONK PARAKEET IN HYDE PARK, CHICAGO .....  
..... *Jeremy Hyman and Stephen Pruett-Jones* 510
- SUCCESSFUL NESTING BEHAVIOR OF PUERTO RICAN PARROTS .....  
..... *Karen A. Wilson, Rebecca Field, and Marcia H. Wilson* 518
- LIFE HISTORY AND ECOLOGY OF FLAMMULATED OWLS IN A MARGINAL NEW MEXICO POPULATION  
..... *D. Archibald McCallum, Frederick R. Gehlbach, and Sophie W. Webb* 530
- SHORT COMMUNICATIONS
- THE EFFECTS OF EXOGENOUS TESTOSTERONE ON MALE NORTHERN MOCKINGBIRDS DURING THE  
BREEDING SEASON ..... *Michael J. Justice and Cheryl A. Logan* 538
- EFFECTS OF FOOD SUPPLEMENTATION AND PREDATOR SIMULATION ON NUTHATCHES AND PARIDS  
WITHIN MIXED-SPECIES FLOCKS ..... *Peter H. Yaukey* 542
- MALLARD-LIKE DUCKS IN THE PLAYA LAKES REGION .....  
..... *Alan M. Fedynich and Olin E. Rhodes, Jr.* 548
- FIRST DESCRIPTION OF THE NEST AND EGGS OF THE SOCORRO MOCKINGBIRD .....  
..... *Juan E. Martínez Gómez and Robert L. Curry* 551
- EXCEPTIONAL RESPONSE BY FEMALE RED CROSSBILLS TO DIETARY CAROTENOID SUPPLEMEN-  
TATION ..... *Geoffrey E. Hill and Craig W. Benkman* 555
- WINTER FOOD OF A SMALL INSECTIVOROUS BIRD, THE GOLDEN-CROWNED KINGLET .....  
..... *Bernd Heinrich and Ross Bell* 558
- FIRST NESTING RECORD OF THE GREAT-TAILED GRACKLE IN OREGON .....  
..... *Eric J. Scheuring and Gary L. Ivey* 562
- GROUND-NESTING LONG-EARED OWLS .....  
..... *Michael T. Maples, Denver W. Holt, and R. Wayne Campbell* 563
- GRAY FLYCATCHER PREDATION ON A HUMMINGBIRD .....  
..... *Gilles Seutin and Victor Apanius* 565
- ORNITHOLOGICAL LITERATURE ..... 568
