SUGGESTIONS TO AUTHORS

See Wilson Bulletin, 110:152-154, 1998 for more detailed "Instructions to Authors."

<http://www.ummz.lsa.umich.edu/birds/wilsonbull.html>

Submit four copies of manuscripts intended for publication in *The Wilson Bulletin*, neatly typewritten, double-spaced, with at least 3 cm margins, and on one side only of good quality white paper. Do not submit xerographic copies that are made on slick, heavy paper. Tables should be typed on separate sheets, and should be narrow and deep rather than wide and shallow. Follow the AOU Check-list (Sixth Edition, 1983) insofar as scientific names of U.S., Canadian, Mexican, Central American, and West Indian birds are concerned. Abstracts should be brief but quotable. Where fewer than 5 papers are cited, the citations may be included in the text. Follow carefully the style used in this issue in listing the literature cited; otherwise, follow the "CBE Style Manual" (AIBS 1983). Photographs for illustrations should have good contrast and be on glossy paper. Submit prints unmounted and provide a brief but adequate legend for each figure with all captions on a single page. Do not write heavily on the backs of photographs. Diagrams and line drawings should be in black ink and their lettering large enough to permit reduction. Original figures or photographs submitted must be smaller than 22 × 28 cm. Alterations in copy after the type has been set must be charged to the author.
